REMARKS.--The Passaic Valley Water Commission (PVWC) diverts water to the PVWC intake canal just upstream of Beatties Dam at Little Falls. Due to the hydraulics of the reach, it is possible for the intake to also draw water up from Passaic River, located 750 ft downstream from the intake. Prior to the 2001 water year, diversions at this location were included with those made at Little Falls (01389490). Records provided by Passaic Valley Water Commission (see also 01388980 and 01388981).
